

COVID19 Action plan

The mission of Arismari Luxury Villas is to always deliver high quality services and luxury accommodation, ensuring an exquisite stay for our guests, reaching their expectations and thus offering a memorable holiday experience.

While keeping our mission in mind, the health of our guests and employees is a top priority. Hence why we are taking the appropriate measures and are aiming for a safe opening. In order to achieve this we have adapted our action plan and are in compliance with the EODY (Greek Public Health Organization) new health recommended protocols and standards, released from the Greek Ministry of Tourism.

Bearing in mind that Greece has successfully minimized contamination risk and that our villas are ideal for someone to experience relaxation and privacy combined, it makes us one of the safest holiday destinations you can enjoy.

Action Plan:

- **Health Coordinator** has been appointed to make sure health protocols are being followed.
- There is a **Doctor on call** who can act if necessary, under EODY instructions.
- **Arismari Luxry Villas staff** is well trained and Convid-19 educated following all necessary hygiene rules to avoid virus transmitting, and provided with all necessary personal protective equipment (e.g. masks, gloves)

Our villas:

- Have private swimming pool & jacuzzi which are thoroughly being checked and cleaned as per pool hygiene protocols
- Have private terraces and sun loungers
- Are equipped with air-conditioning, autonomous units (not central), which are cleaned and sterilized
- Are equipped with masks, gloves, hand antiseptic gel, and first aid kits (everything included for one/personal use)

Time between check-in (at 15:00) and check-out (at 11:00) has been extended for proper deep cleaning. Fabric surfaces (e.g. furniture) will be cleaned with steam appliances as per EODY instructions.

These are challenging times - thank you for your trust and we look forward to welcoming you soon, with open hearts.

Keep calm & stay healthy
